

## SOME OF THE SERVICES THAT WE PROVIDE

### MOST PC USERS DON'T KEEP THEIR MACHINES "CLEAN".

The result is that the machine runs slowly if at all. Then people run out to get a new computer and spend a day or two reloading their programs and often are unable to get their data files into the new machine.

Do the steps outlined here on a reasonably regular basis and you will find your machine(s) will be good for many more years.

The how to do it for each of the steps is outlined further in our 16 page "PC Maintenance" Manual. ITS FREE Just call for your copy.

You can also have us do it on a regular basis , just Call. We do it via our **ROBOGEEK** remote service making the cost almost insignificant. If you have traveling competitors of ours do it , it will cost you well over \$100 and going up with the cost of gas. If you bring it in your spending your valuable time and money on top of the these costs.

Lets face it , YOU NEED YOUR MACHINES and need them WORKING.
